

Club helps create reef on bay bottom

REEF BALL FROM 1B

ment
site. Others observed from boats.

This project "really provides the kids with a lot of opportunities," Barber said. "It gives them a good feeling of a real and positive impact on the environment."

Miriam agreed, even though towing the ball was tough because it started sinking before it got into place.

"It's really been a fun experience," she said. "It was really neat, especially when the kids got to ride on the Jet Ski. We got a new adventure."
